

Some Alternative Hemorrhoid Cures

When it comes to hemorrhoids, there are actually several natural cures which you can apply. Natural cures are common in the medical world because it is an excellent substitute to the most popular types of medications that are given today. Most hemorrhoid choice cures are based on substances which are not only effective but they do not contain any proteins or synthetic materials that might trigger allergic reactions. Below are a few of the alternative cures which are used for treating [hemorrhoids](#).

Another kind of natural cures provided to be able to hemorrhoid patients are flavonoids and fiber.

“ Butcher's brush or Ruscus aculeatus, is actually one of the most common hemorrhoid alternative cures given today. Also known as sweet sweeper, box holly or knee holly, this plant came from Europe. The plant was originally used for washing various types of chopping blocks. This plant has been extensively used in treating the poor circulation in the blue veins. Butcher's broom contains anti-inflammatory properties and it also constricts the veins in order to promote the shrinking of swollen veins and tissues. This type of treatment is provided through tea or capsule form. The Butcher's Brush tea has a bitter taste and that is the reason why it should be consumed with sweeteners and honey. The tea can be made through one teaspoon of herb and hot water. The plant can also be used for high blood pressure and prostatic hyperplasia.

Flavonoids are compounds which are found in several citrus fruits. It is used to improve the flow of blood in the varicose veins and it is quite effective in treating bleeding, itching, pain, heaviness or strong discharge. In terms of fiber, it is effective in dealing with constipation. Constipated patients often have an increase in anal stress due to their condition that is why there is a need for added fiber in the diet. Fiber softens the stool so that the discharges will not be hard.
